⚠️ WARNING - Seizures

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, such as while watching TV or playing video games, even if they have never had a seizure before.
- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

- Avoid excessive play. It is recommended that parents monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don't think you need it.

- If you continue to have sore hands, wrists or arms or eyes during or after play, stop playing and see a doctor.

⚠️ WARNING - Battery Leakage

Nintendo portable video game systems contain a rechargeable lithium ion battery pack. Leakage of ingredients contained within the battery pack, or the combustion products of the ingredients, can cause personal injury as well as damage to your hardware. If battery leakage occurs, avoid contact with skin. If contact occurs, immediately wash thoroughly with soap and water. If liquid leaking from a battery pack comes into contact with your eyes, immediately flush thoroughly with water and see a doctor.

To avoid battery leakage:
- Do not expose battery to excessive physical shock, vibration, or liquids.
- Do not disassemble, attempt to repair or deform the battery.
- Do not dispose of battery pack in a fire.
- Do not touch the terminals of the battery, or cause a short between the terminals with a metal object.

SPECIAL DRIVING FEATURES

BOOSTING
Boost Pads can be found on most tracks. When a car drives over a Boost Pad, it immediately receives a higher top speed and an instant Boost in acceleration.

POWER SLIDE
By entering a turn and oversteering, you can cause your rear tires to slide out, allowing for a tighter turn.

SPEED-NULLIFYING
Warning! These specially marked patches will instantly reduce a player's speed. Avoid at all costs.

DRAFTING
When a car successfully drafts - or tailgates - another car, the drafting car will literally steal some Boost from the lead car. This allows racers to draft off of one another and then pick the time to accelerate past by pressing the R Button! Drafting is only available in Piston Cup races.
